Dependencies and bla-bla:

BSC Mega Props - SG Vol01.dat

BSC Mega Props - Swi 21 Vol01.dat

BSCBATProps_GreekBathPark_riptide.dat

OM_Sicherungsprops.dat

BLaM_Essentials_v1.dat

Afflicted for the rather significant number of dependences. That being, when I created these batches, I did not think of reaching a " good" quality enough, I did it without intention to put them on unspecified sites. The fact of putting them on Simtropolis and ToutSimCity.COM is for me a great honor and a great success, this is why I endeavour to improve me day after day.

Thanks :

I thank all the community for ToutSimCity.COM (in French) for their support and their regular visit of my pitiful Newspaper of my city and for their excellent tutos which helped me well, I must say it;

I also thank my little sister who had the idea of this small series, and finally all those which, of near like by far, support me in all that I make.

I also thank those which take time to download this pack;

I thank also my computer, without which I would not make a success of this pack;

I thank also my bed which rests to me during long (or short) nights of sleep; -).
